

## Pressure Vessel information inventory

The following document is to be completed for each Pressure Vessel.

- The front page of this document gives an explanation of the information required.
- Information supplied on this document will be transposed to the pressure vessel database, which is published on the EHS Unit website.

Please email Steve Guggenheimer ([s.guggenheimer@unimelb.edu.au](mailto:s.guggenheimer@unimelb.edu.au)) if you encounter any problems when providing the information.

Number	Field	Meaning
1	Faculty	University Faculty
2	Department	University Department
3	Group	Group with in the Department
4	Room	Location of plant
5	Name/Group	Group in control of plant
6	Asset No.	University Asset Number. <b>Note each pressure vessel should have an Asset Number</b>
7	Make	Manufacture
8	Model No.	Manufacture's model number
9	Serial No.	Manufacture's serial number (in most cases) <ul style="list-style-type: none"> <li>• <b>On compliance plate fastened to plant after 1995</b></li> <li>• <b>Stamped on vessel prior to 1995</b></li> </ul>
10	Design No	Government Design number <ul style="list-style-type: none"> <li>• <b>Only pressure equipment with Hazard Levels of A, B, C or D requires notification of design</b></li> <li>• <b>Design Notification only applies to plant that was designed on or after 1 July 1995.</b></li> </ul>
11	Gov. Stamp	Government approval number <b>Stamped on vessel prior to 1995 looks like: Axxx or Axxxxx or BIAxxxxx or V xx-xxx or similar</b>
12	Registration No.	WorkSafe Registration number
13	<b>Date of Manufacture</b>	<b>D.o.M</b> in years
14	Owners manual	Owners manual
15	Service history	Documented Service history
16	Training log	Documented Training log
17	List of users	List of users
18	Risk assessment	To be discussed
19	P. MPa	Pressure in Mega Pascals <b>or help needed</b>
20	Vol. Ltrs	Volume in litres <b>or help needed</b>
21	Contents class	As per 4343 (Assumed steam ) <b>or help needed</b>
22	<b>Quick-Actuating-Doors</b>	Does the autoclave have <b>Q.A.D.</b> (Y/N) <b>or help needed</b>
23	gas / fluid	Assumed steam, if not state gas/fluid as per AS 4343
24	Class	Enter Class (a, b, c, d, e) <b>or help needed</b>
25	Year of expire	Year of expire

<b>Please complete the following fields for each pressure vessel</b>	
Faculty	
Department	
Group	
Room	
Name/Group	
Asset No.
